The Science of Climate Change: current situation and future perspectives

Conferência sobre a ciência das alterações climáticas, incluindo as perspetivas futuras. Entrada livre, limitada aos lugares disponíveis, com marcação prévia obrigatória. Auditório da Fundação Champalimaud, Lisboa.

The event includes the participation of three international scientists:

- Prof. Enrico Brugnoli, Principal Investigator and ex-director of the Earth System Science and Environmental Technologies Department of the National Research Council (CNR) in Rome, Italy.
- Prof. Pedro Soares, physicist of the atmosphere at the University of Lisbon (FCUL), Portugal.
- Prof. Martin Siegart of Imperial College, London and Co-Director of the Grantham Institute for Climate Change & Environment, United Kingdom.

And with the participation of:

- Prof. João Pedro Costa, Professor at the Faculty of Architecture at the University of Lisbon, author of the book Urbanismo e Adaptação às Alterações Climáticas, Councillor in Lisbon city council.
- Jorge Portugal, Director of the Association for Corporate Innovation - COTEC, as representative of industry.

Auditorium of the Champalimaud Foundation in Lisbon.

Organized by the Association of Italian Researchers in Portugal - Hipácia, in collaboration with the Italian Embassy, the Champalimaud Foundation, the Italian Cultural Institute, and the British Embassy.

Organização: HIPÁCIA (Associação Dos Investigadores Italianos Em Portugal)
